The Rationale and Purpose of this policy	This policy outlines the admissions process and gives clear examples of the type of student we are able to educate and support
Appendices	This policy has no appendices
Copying	No school policy is ever written in isolation. Acknowledgement of sources of advice and significant influence in the development and recording of policies at the West Heath School are noted on the front page. We request that any schools or organisations incorporating large sections of this policy without alteration should make similar appropriate acknowledgement.

Introduction

West Heath School seeks to provide education for 10-19-year-old students. We provide a high level of education for Key stage 2, 3, 4 and 5 teaching the National Curriculum, as well as a broad range of GCSE, BTEC and A Level subjects. We are an approved s.41 school under the Children and Families Act 2014

All of the children who come to us will have their own individual challenges; many of them will have been out of school for a considerable period of time. Here at West Heath we are able to provide excellent support in accordance with their individual needs that will enable them to go on to thrive academically.

We specialise in providing for a wide range of Social Emotional and Mental Health (SEMH) needs presenting attachment difficulties and complex trauma. Some of our children suffer from obsessive disorders, anxiety and depression, others have high functioning ASD or PDA and therefore have communication difficulties. Alternatively, some of our children externalise their behaviour and have a diagnosis of ADHD or ODD but will respond well to our gentle therapeutic approach. We are a haven for those children who have been severely bullied, but accept that the victim can sometimes become the perpetrator, who also needs understanding and management.

There are three main routes of referral, local educational authorities, parents who fully fund places at the school directly and parents whose children receive full or partial bursaries. Students in the first category almost invariably have Education, Health and Care Plans. Students in the second two categories usually do not. Under the new Children and Families Act (September 2014) we are aware that parental choice will be a greater factor in deciding which school a child attends.

The Aim of this policy...

- To provide a clear admissions process for parents/carers and stakeholders.

The Objectives of this policy..

- To ensure West Heath School admit students who meet our admission criteria and have every chance of succeeding and progressing.
- To ensure all our students can progress and the mix of students is in keeping with our vibrant and successful learning environment, with all students feeling safe.

Admissions Criteria

The School is registered with the Department of Education under the designation of Social Emotional and Mental Health (SEMH).

We welcome a student with or without an EHCP who is exhibiting mild to moderate levels of one or more of the following:

- A child suffering from depression and related problems which in the extreme have led to self harm and possible suicide ideation
- Anxiety based problems including attachment disorder and Tourette's syndrome
- Phobias inhibiting school attendance or "normal" living e.g., OCD
- Refusal to attend school; separation anxiety disorder
- High functioning ASD (including PDA)
- Mental health problems suffered as a result of complex trauma
- Externalising behaviour difficulties including ADHD and ODD
- Relationship problems and lack of social skills
- A child suffering family trauma as a result of events such as accidents, bereavement or abuse
- Social difficulties, possibly as a result of extreme discrimination or bullying
- Specific learning difficulties with resultant behaviour reactions
- Social and communication difficulties
- Diagnoses of ME and post viral syndrome illnesses which have prevented normal school attendance and progress
- Foetal Alcohol Syndrome

We do not normally take students who display the following tendencies, but we can often recommend an appropriate alternative School.

- A sustained history of violence directed against property, students, or staff
- A history of arson
- A history of bringing firearms, knives or other dangerous items into school
- A child whose behaviour creates unacceptable health & safety risk
- A child who has been known to supply or deal in drugs
- A child who has severe learning difficulties and who is unable to access the broad and balanced curriculum delivered for students of average or above potential

- A child with complex physical needs
- Students with a primary speech and language need
- A child with high levels of mental health difficulties such as Schizophrenia/Psychosis/Severe Personality Disorder
- A child who presents as a significant suicidal risk
A child whose behaviour is likely to significantly impact negatively on fellow members of our school community, for example, by increasing anxiety in other students
- A child with a history of persistent sexualised behaviour or assault
- A child who would require a high level of staff support, for example, in the ratio of 2:1, to keep themselves and/or others safe or to make progress in their learning

Admission Procedure:

1. We welcome informal visits to the School from prospective parents/guardian and pupils. This can be arranged by contacting our Admissions Officer.
2. While West Heath School is an approved Section 41 school, we advise all parents to tour and formally consult with us regarding the suitability of a placement for their child prior to making the decision to name the school as their preferred parental choice.
3. We accept students at any time during the academic year (subject to space). We do not admit pupils into our year 11 cohort and applications for Sixth Form should be submitted, for a college placement to be secured. All Sixth Form students are educated offsite by our partner providers.
4. Formal applications are submitted either by parents or via referral from the local authority, which initiates the start of the official consultation process.
5. Our admissions team, which includes a range of professionals depending on the child's need, reviews the paperwork in the context of our admissions procedure.
6. We aim to respond to applications within two weeks, not including school holidays, and successful applicants will be offered an interview, typically carried out by the Principal and appropriate members of the senior team.
7. Following a successful interview, a two-day assessment is carried out by relevant professionals and practitioners, to include a Speech and Language assessment and a meeting with the School's Psychologist, if necessary.

8. A letter to the student's parents/carers and local authority is sent either not offering or offering a placement at West Heath School.
9. The school will discuss the student's needs with previous providers and professional/practitioners involved, prior to making a decision, regarding the offer of a placement. Therefore, it may take up to two weeks following an interview or assessment days to send a formal response.
10. The decision to not offer a place at West Heath School, at any point of the consultation process, is only ever taken after careful consideration by experienced professionals who feel the provision at West Heath is not sufficient to adequately meet the child's needs and therefore a place at the school would not be in their best interest.
11. If a placement is offered the school await funding to be agreed before transition arrangements are put in place.
12. The offer of a placement is always dependent upon available spaces generally and in specific year groups/learning environments (HEART for example). It is also dependent upon the capacity of our Induction and transition teams.
13. West Heath School is a listed building with enforced planning restrictions. West Heath School does not own the school site, is accountable to the landlord and accordingly bound by the terms and conditions of the lease. Therefore, the school site cannot be built on or expanded in order to accommodate any additional students.
14. When we are oversubscribed in a particular year group/ learning environment, we do hold an electronic waiting list. The waiting list is based on a first come, first served basis and students are put on only at the request of the Local Authority and/or parents. We hold students on the waiting list for 12 calendar months and will contact them as and when a place becomes available. If a place does not become available during this time, but is still desired, the consultation paperwork must be resubmitted.
15. Once a student has started, a New Student Progress Review will typically be held after 12 weeks, to understand how well they are progressing.
16. On the rare occasion where the student either isn't progressing sufficiently to warrant a continued placement or if the students' needs emerge as outside our admission criteria, an in-year review will be called. This review will focus on how our provision can be adjusted if possible, to meet the student's needs and if this isn't achievable or reasonable to identify an alternative provision in partnership with the student, parent and local authority.

Persons with particular responsibilities

The implementation of this policy is the responsibility of the admissions panel who are selected from the SLT team and the SENCO

Other Participants & Stakeholders

Parents
Local Authorities

Monitoring & Evaluation

SLT
Student Services Committee
Trustees
Admissions Officer
SENCO
